

**SRI RAMAKRISHNA
DENTAL COLLEGE & HOSPITAL**
(Educational Service : SNR Sons Charitable Trust)
Affiliated to the Tamilnadu Dr. M.G.R. Medical University, Chennai,
Recognised by Dental Council of India, New Delhi

ANNUAL REPORT 2021-22

SRDCH stepped into the 22nd year as a renowned Dental Institution with the vision “To be the best educational and service unit in dentistry imparting knowledge, clinical skills, patient care, and social responsibilities with ethical practice on par with global standards”. The main objective was to fulfill the vision and mission of the college through various Academic and extension activities. The institution has maintained its excellence in healthcare and education, by adapting to the new normal, through innovation and enterprise amidst stringent COVID prevention measures.

S.N.R Sons Charitable Trust

S.N.R Sons Charitable Trust was founded in 1970 by the illustrious sons of Sri S.N. Rangasamy Naidu; being an ardent devotee of Sri Ramakrishna Paramahansa, all the institutions started by the trust, bear the name of the holy sage ‘Sri Ramakrishna’.

The trust runs various Hospitals and Institutions namely Sri Ramakrishna Hospital, Sri Ramakrishna Dental College and Hospital, Sri Ramakrishna College of Nursing, Sri Ramakrishna College of Physiotherapy, Sri Ramakrishna College of Pharmacy, S.N.R. Sons College, Sri Ramakrishna College of Arts and Science for Women, Sri Ramakrishna Engineering College, Sri Ramakrishna Institute of Technology, Sri Ramakrishna Polytechnic College, Sri Ramakrishna Advanced Training Institute, Sri Ramakrishna Matriculation Higher Secondary School - Avarampalayam, Sri Ramakrishna Matriculation Higher Secondary School – Vattamalaipalayam, Sri Ramakrishna Vridhasramam, Sri Ramakrishna Rural Health Centre, Vattamalaipalayam, Sri Ramakrishna Rural Health Centre, Pachapalayam, Sri Ramakrishna allied health science Institute, Sri Ramakrishna Urban Health Centre, Ganapathy and Community Halls in Coimbatore.

The vision of the trust is to offer total commitment to social cause in a selfless mission, to give relief to the needy and the poor, with the mission to provide quality health care to the needy through efficient health services and provide enlightenment through education to students to produce graduates in different fields; General, Technical and Professional Education including Medical, Dental and Paramedical Sciences with competitive spirit and competence to serve the society and the country.

Sri Ramakrishna Dental College and Hospital

Sri Ramakrishna Dental College and Hospital is a unit of SNR Son's Charitable Trust which started in the year 2000, with the aim to be the best dental institution providing education, infrastructure and treatment facilities to students and patients. The annual intake started with 60 student's admission and upgraded to 100 student's admission from 2007 in undergraduate program. The postgraduate program was started from 2009 in five specialty courses. The undergraduate and post graduate courses are affiliated to Tamilnadu Dr.MGR medical health university and recognized by the Dental council of India.

SRDCH Vision

To be the best educational and service unit in dentistry imparting knowledge, clinical skills, patient care and social responsibilities with ethical practice on par with global standards.

SRDCH Mission

- To develop and improve student's educational environment that fulfils knowledge and skill to apply and adapt to future needs.
- To provide excellent academic, patient-centred health care with utmost utilization of facilities prescribed and to impart quality value for life.
- To continuously implement the prescribed program objectives and goals recommended by the regulatory/ statutory bodies.
- To evolve as leaders in teaching learning process, research, innovation, clinical care facilities and infrastructure continually with global standards.
- To apply ethical and humanitarian practices in all the programs and articulate human morals and values in the young minds serving the community.

Admission:

In 2021-2022, UG & PG admissions took place through NEET and TN Government counseling. SRDCH is one of the most sought after colleges in TN counseling. In the current year, SRDCH had 100% UG & PG admissions, the total number of admissions being 100 for BDS program and 13for MDS program.

Student statistics - 510

Teaching Faculty statistics - 95

Non-teaching faculty statistics - 136

Due to the Pandemic the previous academic year was extended till December 2021 and the current academic year started in the month of January 2022 and was extended to the month of November 2022.

The pass percentage of BDS and MDS programs for the current academic year are given below.

Batch	I BDS	II BDS	III BDS	IV BDS	
Feb 2022 (Sep 2021)	100%	100%	100%	76%	
August 2022 (Sept 2022)	-	-	(Results awaited)	(Results awaited)	
August 2021	98%	96%	97%	84%	
Batch	MDS (Prosthodontics)	MDS (Periodontics)	MDS (Conservative & Endodontics)	MDS (Orthodontics)	MDS (OMFS)
May 2022	100%	100%	100%	100%	100%

INFRASTRUCTURE

Academic clinic

Sri Ramakrishna Dental College boasts the Academic clinic in which both undergraduates and postgraduates attend the outpatients. In this clinic the graduates acquires skills of dentistry by treating a few thousand patients every year. The Academic clinic is equipped with 260 dental chairs, Digital X-ray units and other advanced equipment's in dentistry for enhancing the learning process of

students and shaping them into better professionals. This year clinical system was introduced from the month of June.

Central Lab

Our Central lab is well equipped with equipment's like induction casting machine, ceramic furnace, milling machine, High speed spindle grinder and Bego Surveyor. We train our post graduate students with metal ceramic and All ceramic restorations, precision attachments, Cast Partial Denture, Maxillofacial Prosthesis, Implant supported restorations so that they get to know the step by step laboratory procedures which will help them to bring perfection in their clinical work.

Classroom

Sri Ramakrishna dental college has been consistent to maintain excellence in the academic standards since its inception. The college has 4 adequately spaced lecture halls. Each lecture Hall has the capacity to accommodate 100 students. The lecture halls have a raised dais and are equipped with Smart Boards which enlightens the students learning experience.

Conference Hall

Sri Ramakrishna Dental College and Hospital has a fully air conditioned conference Hall. The conference hall has a stadium type of seating which can accommodate 250 individuals. The raised dias and podium along with the digital projector and Audio system equips the Hall. The scientific, cultural events and various committee meetings are held in the Hall regularly.

Auditorium

Sri Ramakrishna Dental College and Hospital has a 1100 seat auditorium. Graduation day program and cultural program are held in the auditorium.

CSSD

Central Sterile Services Department (CSSD) is an integrated place in our dental hospital where dental/ surgical supplies and equipment are sterilized so that they are ready for use in patient care.

ICT (Information and communication Technology)

Sri Ramakrishna Dental College and hospital has its own ICT wing functioning within the campus. The ICT Facilities of the college include Learning Management Software, Library Management Software, Store Management software and Patient Management Software.

Seminar Halls

Sri Ramakrishna dental college and hospital has 5 seminar Halls, which are equipped with projectors and WLAN. The Seminar Halls provide a comfortable ambience for students to focus on their areas of interest in Academics and Research. The seminar halls are regularly utilized by the Undergraduates and Postgraduates for seminar presentations, case presentations and journal club activities.

ENVIRONMENT

Alternate power

The campus utilises alternate power using solar for lights (16 KW + 75KW), water heater (2000 L) and use steam pressure for cooking. This has reduced the electricity bill by 1/3rd.

Greenery

The college campus is well landscaped with gardening to produce an environmental and a stress-free environment through creating a green backdrop. Variety of trees, plants and medicinal herbs are grown and students are encouraged to Plant a tree on occasions.

Disabled friendly atmosphere

The campus has separate entry point, lift, wash rooms for old age and wheel chair assisted.

Waste Management

The campus has a robust waste management system to clear the Biomedical, Solid (biodegradable, non-biodegradable), liquid waste (sewage).

INFORMATION TECHNOLOGY – DIGITALISATION

Dental Patient Management Software (DMS)

DMS is the most comprehensive and integrated system for complete maintenance of outpatient record. It makes clinical notes and documentation legible and reduces clinical errors. It maintains the day to day appointments of the patients. The investigations, Treatment plan and Referral made easy in this system. It also holds the ease of billing for dental treatment procedure.

Library Management System (LMS)

It is a well-chosen system which gives access and manages the resources in library. It increases the library's efficiency by saving valuable administration time which lead to a better educational experience for pupils and helps to develop independent learning. It gives access for registration of books with accession number in both department and central library and maintains the issuance and collection of books including fine for delayed returning of books.

Store Management - Wellspring

Store management system automates goods procurement process, receipt of goods, PO creation, Indent creation, approval from higher authority, stock book entry, bill passing, issue of material for departments, expired goods, purchase and sales return, stock book maintenance. It generates various store reports.

Learning Management System (LMS)

Software delivers administration, documentation, tracking and delivery of educational courses, training programs and developing programs. LMS manages all type of content including power point presentations, case records, and flipped class rooms. One can access materials anytime, from everywhere, teachers can modify the content, and students can see the updated material. It helps teachers to maintain student's attendance and can track student's performance easily.

Smart Hostel

Hostel Security Software - Smart Hostel manages hostel activities and automates the permission request approval, intimates the hostel inmates' in-out details to the parent/guardian.

DEPARTMENT PROFILE

ORAL MEDICINE& RADIOLOGY

The specialty is involved in the clinical and radiographic diagnosis, treatment planning, and medical management of a wide spectrum of cases such as odontogenic & non- odontogenic cysts and tumors, mucosal lesions, temporomandibular joint disorders, salivary gland diseases and lesions and fractures of the oro-facial region. Our students are taught to examine the oral cavity, recognize the range of normal appearances, and distinguish what is abnormal by studying the features of various oral diseases. We provide adequate knowledge to the students about common laboratory investigations and interpretation of their results, medical complications that can arise while treating systemically compromised patients, and take prior precautions/ consent from the concerned medical specialist. The students are trained such that they gain the competency to take intra-oral radiographs and interpret the radiographic findings. They are also made aware of the importance of intra- and extra-oral radiographs in forensic identification and age estimation.

To accomplish this, we are equipped with state-of-the-art digital intra-oral and extra-oral X-ray units with adequate training being imparted on radiation safety and protection. Our radiology department meets the requirements of the ATOMIC ENERGY REGULATORY BOARD. We also ensure that the students are familiar with jurisprudence, ethics and understand the significance of dental records with respect to law.

Specialised Services

- Medical Management for Orofacial pain & TMJ Disorders
- Intralesional Injection for OSMF
- Medical Management of Potentially Malignant Disorders
- Medical Management for OroFacial lesions (Infections, Oral ulcers, Vesiculobullous lesions, Mucocutaneous lesions, Autoimmune disorders)
- Medical Management for Medically compromised patients.

Programs Conducted By The Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1	1.8.2022 to 7.8.2022	Analysis Of CBCT Scan	Conference hall	Interns and Post Graduates
2	12.11.2022	International Radiology day	Conference hall	Staff & students
3	15.11.2022	CSM	Conference hall	Staff & students
4.	19.3.22- 27.8.22	Forensic odontology – value added course	Classroom	III BDS students

ORAL & MAXILLOFACIAL SURGERY

Oral and maxillofacial surgery is a branch of surgery to correct a wide spectrum of diseases, injuries and defects in the head, neck, face, jaws and the hard and soft tissues of the oral and maxillofacial region. It is a recognized international surgical specialty and it is one of the nine specialties of dentistry. The Maxillofacial post graduate out-patient department deals with minor oral surgical procedures like Impactions, Trauma, Surgical removal of cysts and Oral Implantology. The Maxillofacial unit teams up with surgeons of other specialties like Neurosurgery, Plastic Surgery, Surgical Oncology and undertake Facial Plastic and Reconstructive Surgeries, Management of Trauma patients, Orthognathic Surgeries and Oncosurgical cases. Post graduate programme was started by 2009. There are 6 post graduate students in the department who are posted on-call 24×7 at the hospital casualty. They undergo special training in departments like Casualty, Anesthesia, and Intensive care, General Medicine, General Surgery, Neurosurgery, Ophthalmology, ENT, Radiology, Orthopedic, Plastic Surgery and Surgical Oncology at Sri Ramakrishna Hospital.

Clinical Core

- Dentoalveolar surgery (surgery to remove impacted teeth, difficult tooth extractions, extractions on medically compromised patients, bone grafting or pre prosthetic surgery to provide better anatomy for the placement of implants, dentures, or other dental prostheses)
 - Diagnosis and Surgical treatment of benign and malignant pathology, cysts, tumors etc.
 - Diagnosis and Surgical treatment of congenital craniofacial malformations such as cleft lip and palate and cranial vault malformations such as craniosynostosis, (craniofacial surgery)
 - Diagnosis and Surgical treatment of soft and hard tissue trauma of the oral and maxillofacial region (jaw fractures, cheek bone fractures, nasal fractures, Face bone fractures, skull fractures and eye socket fractures)
-

- Diagnosis and treatment of chronic facial pain disorders.
- Diagnosis and treatment of temporomandibular joint (TMJ) disorders
- Cosmetic surgery limited to the head and neck: orthognathic surgeries and allied surgeries (rhytidectomy/facelift, browlift/blepharoplasty, otoplasty, rhinoplasty, septoplasty, cheek augmentation, chin augmentation, genioplasty, neck liposuction, lip enhancement, injectable cosmetic treatments, botox, chemical peel etc.)Oncological(oral cancer) surgeries and reconstruction of defects

Programs Conducted By The Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1.	12.2.22	International Oral &Maxillofacial Surgeons Day	Conference hall	Staff & students
2.	24.8.2022 7.9.2022	'BASIC LIFE SUPPORT'	Conference hall	Students
3.	15.11.2022	CSM	Conference hall	Staff & students

ORTHODONTICS & DENTOFACIAL ORTHOPAEDICS

The Department was initiated for Under-graduate students in the year 2000 and post graduate students in the year 2009. Undergraduate students during their clinical posting students learn to diagnose and identify various malocclusion of the orofacial skeleton, preventive, interceptive and corrective aspects of treating skeletal and dental malocclusions and fabricate various removable appliances for correction of minor orthodontic deformities. Department is employed with highly qualified faculties with super specialty degrees like MOrth RCPS to guide the students for the endeavors. Every post graduate student get to work with different forms of treatment like ceramic appliances, self-ligating like Damon, lingual appliances, clear aligners like Invisalign, orthognathic surgeries and orthopedic cases, along with special cases like cleft lip and palate, multi-disciplinary cases and syndromic cases. The undergraduate students will be awarded with the prestigious Dr. Rangachari Gold medal by the institution, every year for their excellence in the field of Orthodontics

Department has separate fully equipped UG and PG clinics to cater the needs of the students' education and patient work. We have the latest state of the art digital software, like Dolphin for cephalometric analysis and documentation. Digital surgical planning, facial morphing, treatment simulations for advanced clinical knowledge and improved patient education is being done in the department. The ultimate aim of the department is to provide the patient with an exquisite smile. Apart from college central library, the department library has various National and International Journal articles till latest edition and more than 50 books. The department is equipped with an exclusive photography room with tripods and rectangle soft boxes for improved photography experience and documentation.

Areas of Expertise

Removable Appliances	Myofunctional Appliances
Fixed Orthodontic Appliance- Metal	Orthognathic Surgeries
Fixed Orthodontics Appliance – Ceramics	Maxillary Expansion Appliances
Self-Ligating Brackets- Metal	Temporary Anchorage Devices- Mini Implants/ Mini Plates
Self-Ligating Bracket- Ceramic	Fixed Retainers
Ceramic Brackets with Metal Slot	Removable Retainers
Customized Bracket Treatment- Insignia/Incognito	Accelerated Orthodontic Treatment
Clear Aligners	Preventive and Interceptive Orthodontic Treatment
Lingual Orthodontic Treatment	Habit Breaking Appliances
Splints- Soft/Hard	

Programs Conducted By The Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1.	28.6.2022 29.6.2022	Basics Of Photography	Department Of Orthodontics	Postgraduates
2	30.8.2022	CSM	Conference Hall	Staff & students
3	15.11.2022	CSM	Conference Hall	Staff & students

PERIODONTICS

Periodontology is the science dealing with the health and diseases of the investing and supporting structures of the teeth and oral mucous membrane. It also deals with early intervention of gingival and periodontal diseases. It is a branch which exclusively deals with periodontal regeneration and gingival augmentation procedures, thereby increasing the periodontal support as well as increase in width and thickness of gingiva. The ultimate motto of the department is that every candidate must achieve a high degree of clinical proficiency in the subject matter and develop competence in research and its methodology as related to the field concerned. Post Graduate students are allowed to do basic and advanced surgical procedures as well as research work under the able guidance of our experienced faculties. The objective of PG course is to train a candidate so as to ensure higher competence in both general and special area of interest and prepare him for a career in teaching, research and specialty practice.

Under graduate students are trained by exposing them to basic procedures such as case history taking, scaling, root planing and simple minor periodontal surgeries such as gingivectomy, gingivoplasty. The department has fully equipped electrically operated chairs along with ultrasonic scalers available separately for UG students, PG students and faculty. The department has an implant clinic equipped with an electrically operated chair along with physiodispenser, implant systems with implant placement kit, RVG and compatible x-ray. Adequately equipped with advanced diagnostic instruments and equipments needed for advanced periodontal regeneration techniques and root coverage procedures. The department has state of art soft tissue lasers and electrosurgical cautery to perform advanced surgical procedures. The students are regularly performing biochemical assays in oral fluids and surgical procedures as a part of research work.

Specialised Services

- Scaling & Root planing
- Periodontal Flap Surgery
- Gingivectomy & Gingivoplasty
- Resective osseous Surgery
- Regenerative Osseous Surgery with Bone Grafts
- Mucogingival Surgery
- LASERs
- Electro surgery
- Implant therapy

Programs Conducted By the Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1.	25.2.2022 1.3.2022 4.3.2022 8.3.2022	Lecture And Hands On Program On Laser And Electro-Surgery	Advanced Training Center	PGs, Interns, staff
2.	01.08.2022	Oral Hygiene Day	Conference hall	Staff, students & patients

PEDIATRIC & PREVENTIVE DENTISTRY

It is a distinct branch of dentistry which deals with treating children from infancy through adolescence including those with special health care needs. A Child handled well, in a dental setting, would develop a positive attitude towards dentistry. Pediatric Dentistry goes a long way not only in instilling positive attitude in children but also in changing the perspective of the society towards dentistry.

Children may not speak but they may bite, they may not tell but may cry”. Managing children is easily said than done. The adage “If milk teeth go sour, permanent teeth will go foul stresses the importance of Pediatric Dentistry. The vision of the Department includes Teaching, Service and Research. The teaching program is designed to provide the dental students with exemplary experience in managing the dental care needs of children. Staff and students develop a friendly rapport with the child and we believe in Win the child and make wonders happen. The department provides a child friendly environment with a spacious waiting parlour and an attractive aquarium. Pediatric dental chairs, cartoon studded clinical area, fascinating toys and winsome gifts make the children spell bounded. It is equipped with advanced equipment’s and instruments like rotary handpiece, apex locator, pulp tester, thermo plasticised GP unit, conventional radiography, RVG and intra oral camera. A separate pre-clinical lab, a top-quality sterilization room and a discussion room for the UGs are available. The Department library houses numerous books of national and international authors and various journals to enrich the knowledge in paediatric dentistry.

Specialised Services

- Glass Ionomer Cement/amalgam, Temporary filling, Light Cure Composite – primary, Light Cure Composite – permanent, Scaling –Hand, Scaling – Ultrasonic, Pit and Fissure Sealant, Extraction, Pulpotomy/Pulpotomy, Apexification
 - Root Canal Treatment-Anterior, Root Canal Treatment – Posterior, Stainless Steel Crown (primary/permanent), Strip Crowns, Minor Surgical Procedures(frenectomy), Operculectomy, Splinting Composite , Fluoride Varnish, Hawley’s appliance
-

- Habit Breakers – Removable, Fixed Band and Loop space maintainer, Fixed Lingual Arch space maintainer, Gropper's appliance, Fixed Habit Breaking appliance.
- Orthodontic trainer, Twin block, Chin cup, Face mask(rapid maxillary expansion)
- Head gear, Frankel appliance, Activator, Rapid palatal expanders, Oral screen, Treatments under general anaesthesia.

Programs Conducted By The Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1	16/11/2021	“Sedation Dentistry: Are you ready to embrace it?” - Lecture and Demonstration of N ₂ O ₂ Sedation	Conference hall, SRDCH	CRI, IV BDS students & Faculty members
2	22.08.2022 - 29.08.2022	Value added Program – Behaviour science for Personality development	II BDS lecture hall	II BDS
3	14.11.2022	Curriculum enrichment program – “Protocol for General Anesthesia”	Conference hall, SRDCH	CRI
4	14.11.2022	Patient education Program	Clinics, SRDCH	Patients

CONSERVATIVE DENTISTRY & ENDODONTICS

The Department is primarily concerned with the preservation and restoration of diseased teeth back to their form, function and aesthetics. It has both Under Graduate & Post Graduate programs, wherein students are trained in academics, research and patient management. The primary goal is to relieve pain, and enhance the smile and facial aesthetics of our patients with state-of-the-art equipment and contemporary techniques. The department has fully equipped, clinical sections for undergraduate and postgraduate students wherein all advanced treatment modalities are provided. A phantom-head laboratory with simulators resembling oral cavity for appropriate hands – on student training prior to clinical exposure is also on deck.

The postgraduate section has all modern equipment like Digital radiography using RVG and PSP systems, Dental Operating Microscope, Micro surgical instruments, LASERS, Instrument retrieval kits, Loupes, Endosonics, Air abrasion kit, LED light curing units, Thermoplastic obturating

systems. It also has a well-equipped isolated operatory for microsurgical and micro endodontic procedures. A fully installed casting and ceramic lab with all equipment for doing specialized laboratory work helps postgraduate students to deliver comprehensive treatment to satisfy the patient needs. The Department Library is stocked with journals and books by National and International authors for ready reference and updating of knowledge.

Specialised Services

Amalgam Restoration	Re Treatment Of root Canal Treated Teeth
Tooth Coloured Restoration	Special Rct Cases (Thermoplastisized Gp)
Anterior Teeth Space Closure (Diastema)	Separated Instrument Retrieval
Microscope Enhanced Endodontics	Post&Core
Composite Veneers	Cast Post
Ceramic Veneers	Frc Post
Microabrasion	Ceramic And Metal Inlay
Bleaching	Onlay
Splinting	Crowns Including Zirconia, E-Max, Lava Crowns.
Periapical Surgery With Retrograde Filling	Apexification
Root Canal Treatment Of Anterior Teeth	Apexogenesis
Root Canal Treatment Posteriors	Re Treatment Of root Canal Treated Teeth
Amalgam Restoration	

Programs Conducted By the Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1	5.03.2022	CONSENDO DAY	Conference hall, clinics	Students, staff, patients
2	14.2.2022 15.2.2022 16.2.2022	Rotary Endodontics	Department	Interns
3	15,18,19/7/2022	Rubber dam placement technique – curriculum enrichment program	Classroom, pre-clinical lab	II BDS students
4	11.9.2022 13.9.2022 14.9.2022	The Art Of Esthetic Restoration With Composites	Conference hall, preclinical lab	Staff & students

ORAL PATHOLOGY & MICROBIOLOGY

Oral pathology is a confluence of basic and clinical dentistry. It is a building block of dentistry. It is a branch of dentistry which is involved in the study of basic oral and dental tissues, and also about its disease and abnormalities. The department was started in the year 2000 at the time of inception of the college. This department teaches and coaches two exam going subjects per year. From 2008 to till date, as per the new regulations of DCI Oral Histology & Dental Anatomy is taught in the first year BDS and Oral Pathology in second & third year BDS.

Apart from academic teaching the department also undertakes the responsibility of clinical histopathology. Biopsy specimens are received from various departments of the institution as well as referrals from other hospitals both in and outside the region. The biopsy tissue both hard and soft specimens are processed in the histopathology lab and diagnostic reports are provided. The department boasts of well qualified and well trained staffs and technicians who takes care of teaching as well as clinical and histopathological work. The department is well equipped with semi-automatic microtome and research microscope with projection system.

Specialised Services

Histopathological examination and reports of biopsy specimens received from other departments

Cytology examination and reports of smears received from other departments.

Programs Conducted By The Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1	4.2.2022	World Cancer Day	SRDCH	Patients
2	25.02.2022	National Oral Pathology	Classroom	I,III BDS students & interns
3	28.6.22	Clinical Society Meeting	Conference Hall	Staff
4	20.7.22, 22.07.22, 28.07.22	Slide Seminar –curriculum enrichment program	Classroom	I, II & III BDS students
5	2021-2022	Forensic odontology-value added course	Classroom	II & III BDS students

PUBLIC HEALTH DENTISTRY

It is the science and art of preventing and controlling dental diseases and promoting dental health through organized community efforts. This subject gives the knowledge about the basis of public health, preventive dentistry, public health problems in India, Nutrition, Environment and their role in health, basics of dental statistics, epidemiological methods, National oral health policy with emphasis on oral health policy.

Department of Public Health Dentistry has been at the center of the efforts by Sri Ramakrishna Dental College & Hospital, Coimbatore in oral healthcare to reach the unreached population. We endeavor to deliver dental treatment to the community through organized dental health camps especially in rural areas and for the dentally indigent. The subject integrates topics like minimal invasive dentistry, evidence based research, fluorides, indices, epidemiology with special emphasis oral health delivery. We are pioneers in conducting dental outreach activities and field experiences for dental students. The department is at the forefront in enthusiastically participating in various health activities in the region and provides oral health under the school oral health program for the schools in Coimbatore region. The department aims to impart students; the skills of identifying health problems affecting the society, conducting health surveys, conducting health education classes and deciding health strategies. The department helps to inculcate a positive attitude towards the problems of the society.

Areas of Expertise

Screening for oral diseases

Diet counselling

Atraumatic Restorative treatments

Pit and Fissure sealants

Topical Fluoride applications

Oral prophylaxis

Restorations-Amalgam, GIC, Composite restorations

Extractions

Tobacco cessation counselling

Oral cancer screening

Carbon Monoxide level – monitoring

Mobile Dental Van

The department operates a modern well equipped mobile dental clinic that travels to even remote locations and serves rural communities. Mobile dental van is furnished with two state of the art dental chairs fully compliant with Dental council of India norms for performing various preventive and curative procedures at their doorsteps.

Comprehensive Dental Clinic

The department has established a comprehensive dental clinic from November 2020 in the dental college that provides single point multispecialty treatment and care for the patients. The clinic is handled by experienced dentist providing a holistic treatment for the various dental problems.

Tobacco Control & Cessation Center

The Tobacco Cessation Centre is a special service run by the department in order to aid persons wishing to quit smoking or chewing tobacco and tobacco containing products. The centre is operational on all days from Monday to Friday. The patients undergo a detailed evaluation and are counseled regarding appropriate strategies to aid quitting. Carbon Monoxide monitor to assess the effects on smoking on lungs is available in the Tobacco Control & Cessation Centre.

Rural Health Centres

Pachapalayam Rural Health Centre

Ganapathy Health Centre

The satellite centres function with permanent staff and provides preventive and curative dental care to the surrounding populations.

Merrymakers on the Go

This project is a unique attempt initiated by department where final year students, interns and staffs visit focused communities like Elderly homes, Hospitals, Orphanages, special needs people and conduct various programs like music, storytelling and other skills to empower the participants with dose of fun that help them deal with the range of emotions and uplift there moods with the positive power of HOPE and HUMOR.

Outreach Programs

- The Department regularly conducts outreach programs at the villages in Coimbatore and Tiruppur districts to provide dental care to the community.
 - Comprehensive care for camp patients
 - The oral health care facilities are provided by the Department in Pachapalayam, Ganapathy.
-

School Programs

The Department of Public Health Dentistry provides dental care facilities under the school oral health program.

Programs Conducted By the Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1.	14.3.2022-20.3.2022	World Oral health day	Camps in gopal naidu & isha vidaya schools; college OPD, Pasur	School students, teachers, patients and public
2.	9.4.2022-10.9.2022	Ethics & Jurisprudence – value added course	Classroom	III BDS students
3.	31.5.2022	World no-tobacco day	Camps in schools & Seethalakshmi hospital	School students, teachers, patients, and public
4.	15.6.2022-18.6.2022	Public health dentistry day	village people of Sri Bharathi Nagar, KPR institute of technology	School students, teachers, public & III BDS students
5.	27.7.2022	Water plant visit	Velliangadu, Pillur	IV BDS students
6.	22.8.2022	Behavioural science and personality development	Classroom	II BDS students

PROSTHODONTICS & CROWN & BRIDGE & IMPLANTOLOGY

Prosthodontics is a branch of dentistry which deals with treating children, and adults including geriatrics with special health care needs. Any patient handled with care, during dental procedure, would develop a positive attitude towards treatment. The department offers undergraduate and postgraduate training for the restoration and replacement of missing teeth. The department offers care to patients who have significant damage to existing teeth, missing teeth, congenital orofacial defects and restores the dentition to form, function, and aesthetics. “DeVan’s golden statement, “Perpetual preservation of what remains is more important than the meticulous replacement of what is missing,” still rings true.

“Dr. M. M. Devan – Should meet the mind of the patient before we meet the mouth of the patient”. The vision of the Department is to train the students to be competent in clinical abilities including prevention and post care in prosthodontics, and research activities. In our teaching schedule we provide our students with clinical skills, theoretical knowledge, communicative skills and geriatric care needs of adults. The Department provides a homely environment with a spacious waiting area and an attractive clinical space. The Department is equipped with an advanced implant clinic and equipments like Induction casting machine, ceramic furnace, digital milling machine, RVG and intra oral camera and Fibre optic and LED handpieces. A well equipped pre-clinical lab for undergraduate and a phantom lab, and a separate ceramic lab for both undergraduate and postgraduate students is

available. The Department library houses numerous books of national and international authors and various journals to enrich the knowledge in prosthodontic and implant dentistry.

Specialised Services

Veneers

Cantilever bridges

Post and core build up

Fibre and custom posts

Zirconia and E-max Crowns

Bridge and loop connector

Implant supported over denture

Tooth supported over denture

Immediate Denture

Flexi denture

Bite raising appliance

Occlusal splints

Full mouth rehabilitation

Complete dentures -balanced

Cast partial dentures

Maxillo facial prosthesis

Smile Designing; NAM Therapy

Programs Conducted By the Department (2021-2022)

S.No	Date	Program	Venue	Beneficiaries
1.	22.1.2022	Prosthodontic Day - Denture With Characters	Online mode	Staff & students
2.	27.5.22	Clinical Society Meeting	Conference Hall	Staff, PGs & CRI
3.	27.08.22 28.08.22	Full Mouth Rehabilitation Clinical Treatment Prospective	Conference Hall, preclinical lab	Postgraduates, private practitioners, faculties
4	30.9.2022	International day for older people	Department	Patients

DEPARTMENT OF ANATOMY

Students gain knowledge and insight into the functional anatomy of the normal human head and neck, functional histology and an appreciation of the genetic basis of inheritance and disease, and the embryological development of clinically important structures, so that relevant anatomical & scientific foundations are laid down for the clinical years of the BDS course.

Human anatomy forms the foundation of clinical practice, diagnostic radiology, emergency medicine and surgery. Hence, special care is taken towards training students in the applied aspects of anatomy. The department aims to instill excellent knowledge of anatomy, as relevant to dental students. All branches of anatomy are taught using various teaching modalities, including the latest 3D anatomy software installed in the lecture halls. Gross anatomy knowledge is enriched by dissection and demonstration of dissected specimens in the dissection hall. Histology, embryology and genetics are taught with emphasis on the functional and clinical importance. The practical labs are also the places where students are first sensitised to the core values of professionalism and ethics. Use of the learning management system in teaching-learning and integration of e-content in learning allows our students to access necessary learning material and guidance at their own pace.

DEPARTMENT OF PHYSIOLOGY

Human physiology seeks to understand the mechanisms that work to keep the human body alive and functioning, through scientific enquiry into the nature of mechanical, physical and biochemical functions of humans, their organs, and the cells of which they are composed. The principal level of focus of physiology is at the level of organs and systems within systems.

Physiology is a basic medical science taught to the health care students which explains about the functions of each system and how they coordinate to maintain good health. The broad goal of the teaching undergraduate students in Human Physiology aims at providing the student comprehensive knowledge of the normal functions of the organ systems of the body to facilitate an understanding of the physiological basis of health and disease.

DEPARTMENT OF BIOCHEMISTRY

Biochemistry deals with chemistry of life in living organisms. Students in dentistry learn the basic concepts in this basic science specialty. The major aim is to provide a sound but crisp knowledge on the biochemical basis of the life processes relevant to the human system and to dental/medical practice. They are practically trained in clinical biochemistry and biochemical techniques which enhance their minds in research that will help the next generation health professionals to serve humanity with dedication.

Our department discover, develop and disseminate knowledge in biochemistry for emerging dentists, to inculcate education to the students that provides a strong foundation and curative skills in the rapidly advancing fields of biochemistry which is essential for dentistry and to provide a conducive learning environment of creative thinking that enables dental students to serve the nation in promotive, preventive and rehabilitative aspects of health care. We encourage students to pursue research work related to biochemistry in dentistry.

Our Services

- Clinical Biochemistry laboratory equipped with automated analyzers.
- Fasting, Post Prandial, Random blood sugar level, HbA1C
- Kidney function profile
- Liver function profile
- Lipid profile

DEPARTMENT OF PHARMACOLOGY

Pharmacology is the scientific discipline that studies the mechanisms by which drugs alter biological systems in an attempt to improve health and alleviate disease. The broad goal of teaching undergraduate students in pharmacology is to inculcate rational and scientific basis of therapeutics keeping in view of dental curriculum and profession. This discipline deals with pharmacokinetics, mechanism of action, molecular approaches, therapeutic action & ADR of drug on biological systems which played an introductory pillar towards therapeutics and future medicine.

Department of Pharmacology in SRDCH is an integral part of the Basic Medical Sciences departments. This department is bestowed with an excellent team of qualified academicians and researchers to lay foundation in basic sciences and research. The Department library houses numerous books to enrich the knowledge in pharmacology. The vision of the department is to train both undergraduate and post graduate students, who may subsequently go on to exciting research, regulatory and administrative careers in academic, industrial and healthcare provision settings. This department is with deep commitment to train and educate the dental students so as to promote good prescribing skills and also in research. The students are also given the opportunity to learn new concepts through seminars, group discussions and role play. We are constantly motivating students to participate & present scientific papers in various national and international conference. We are educating and training the undergraduate and postgraduate students of SRDCH to come out with the highest calibre so that they will be globally recognisable academically. Faculties feel proud on their role in imparting subject knowledge and high-quality professional training besides inculcating human values to the students.

DEPARTMENT OF MICROBIOLOGY

“Without Laboratories Men of Science are Soldiers without Arms” We explain the pathogenicity & lab diagnosis of various microbial infections and to apply the knowledge of sterilization & disinfection in clinical practice. Categorize and plan collection & transport of clinical specimen to the laboratory and prioritise the prevention of hospital acquired infections. The crisis on increasing antibiotic resistance recommends the knowledge on judicious drug usage to prevent drug resistance. The awareness of Immunity, vaccination and its responses, towards an infectious disease helps in infection control.

Medical Microbiology is a large subset of microbiology, is a branch of medical science concerned with the prevention, diagnosis and treatment of infectious diseases. We introduce the students to the exciting world of microbes and to make the students aware of various branches of microbiology, significance and contribution of each branch to mankind and other fields of medicine. Our vision is to be a leading department of infectious diseases research in relation to dentistry. The mission includes

providing quality education in microbiology related to dentistry & inculcating good ethics in diagnosis & treatment. To encourage students to achieve proficiency, to pursue research activities related to emerging & re-emerging microbial infections. The department activities include training the students both in theory, practical classes, research activities and to develop the skill and knowledge on applied and oral microbiology with aseptic precautions.

Services

- Culturing, examination and identification of microorganisms from clinical specimens
- Antibiotic susceptibility testing

DEPARTMENT OF PATHOLOGY

General Pathology is a branch of Basic Medical Sciences where a medical scholar is trained to understand the underlying cause and mechanism of disease process.

The subject helps the students to understand the changes occurring in the human body at anatomical and physiological levels owing to a disease process. The department has qualified and experienced faculties, well equipped lab facilities, library and other modern teaching facilities which help in providing good training to both post graduate and under graduate students. The teaching modalities include lectures, demonstrations and practical sessions which incorporates modern digital tools. The department has a good collection of gross pathological specimens and histopathology slides. We also have a good set of microscope including teaching microscope to learn histopathology and haematology slides better

DEPARTMENT OF GENERAL MEDICINE

General medicine is one of the very important branches of clinical practice and is taught at BDS III year level. It is dealing with the prevention, diagnosis, and treatment of disease especially in adult population. The intention of the department focuses on providing preventive, curative and rehabilitative measures.

The department is conducting classes to undergraduate students with clinical demonstration class, lecture class & seminars. Students are taught in such a manner that he/she is able to record the arterial pulse, blood pressure and be capable of suspecting by sight and superficial examination of body, diseases of the heart, lung, kidneys, blood etc. Special training will be provided to make the student capable of handling medical emergencies encountered in dental practice. Sri Ramakrishna dental college is attached with Sri Ramakrishna multi-speciality hospital for giving live demo on patients to III BDS students.

DEPARTMENT OF GENERAL SURGERY

General surgery is the branch of medicine that deals with the physical manipulation of a bodily structure to diagnose, prevent, or cure an ailment. The department of general surgery is undertaking extensive teaching and training for III BDS students through lectures, clinics, seminars, case presentation and learning operative skills in operation theatre.

The department trains the student to analyse the disease history and be able to do a thorough physical examination of the patient. The disease as related to head and neck region are given due importance. At the end of the one year of study the student will have sound theoretical knowledge of various ailments, and be practically trained to differentiate benign and malignant diseases. Sri Ramakrishna dental college is attached with Sri Ramakrishna multi-speciality hospital for giving live demo on patients to III BDS students.

TEACHING FACULTY

S.No	Name of the Staff	Qualification	Designation	Department
1	Dr. L.Deepanandan	M.D.S.	Prinipal/Professor	Oral & MaxillofacialSurgery
2	Dr.KoshyChithresan	M.D.S.	Professor	Periodontics
3	Dr.AnjanaKurien	M.D.S.	Professor & HOD	Prosthodontics
4	Dr.MinuKoshy	M.D.S.	Professor & HOD	ConservativeDentisrty
5	Dr.J.Srihari	M.D.S.	Professor &HOD	Periodontics
6	Dr.S. Karthikeyani	M.D.S.	Professor & HOD	Pedodontics
7	Dr. SubhaAnirudhan	M.D.S.	Professor	ConservativeDentisrty
8	Dr.M.A.I. Munshi	M.D.S.	Professor	Oral & MaxillofacialSurgery
9	Dr.S.Gowri	M.D.S.	Professor & HOD	oralPathology
10	Dr. M.PraveenKrishna	M.D.S.	Reader	Periodontics
11	Dr. R.Kannan	M.D.S.	Professor & HOD	Oral& MaxillofacialSurgery
12	Dr. A.S. AprosKanna	M.D.S.	Reader	Orthodontics
13	Dr. M. Arun	M.D.S.	Reader	Prosthodontics
14	Dr. R.Bharathan	M.D.S.	Reader	Pedodontics
15	Dr. S. Shilpa Sunil	M.D.S.	Reader	Oral &MaxillofacialSurgery
16	Dr.Arun. K. Simon	M.D.S.	Reader and HOD	Public HealthDentistry
17	Dr.R.Rajesh	M.D.S.	Reader	Periodontics
18	Dr. RonakNazirKaul	M.D.S.	SeniorLecturer	Oral & MaxillofacialSurgery
19	Dr. Sidra Bano	M.D.S.	Reader and HOD	OralMedicine
20	Dr. P. Jagan	M.D.S.	Reader	Public HealthDentistry
21	Dr.RemyaVarghese	M.D.S.	Reader	ConservativeDentisrty
22	Dr.P.Ambalavanan	M.D.S.	Reader	ConservativeDentisrty
23	Dr. R. Vaishnavi	M.D.S.	Reader	Prosthodontics
24	Dr.M.MariaSubashAaron	M.D.S.	SeniorLecturer	Periodontics
25	Dr. Aparna S Kumar	M.D.S.	Reader	Prosthodontics
26	Dr. E.T. AnnTryphena	M.D.S.	SeniorLecturer	oralPathology
27	Dr.S.Sakthivel	M.D.S.	SeniorLecturer	ConservativeDentisrty
28	Dr.S.HariBaskar	M.D.S.	Reader	ConservativeDentisrty
29	Dr.R.Poornima	M.D.S.	SeniorLecturer	Periodontics
30	Dr.M.Varshini	M.D.S.	SeniorLecturer	oralPathology
31	Dr.I. Vinith	M.D.S.	SeniorLecturer	Prosthodontics
32	Dr.N.C. Srihari	M.D.S.	SeniorLecturer	Pedodontics
33	Dr.G. Harshini	M.D.S.	SeniorLecturer	oralPathology
34	Dr.G.HemcleShalma	M.D.S.	SeniorLecturer	OralMedicine
35	Dr. A. Arun Prasath	M.D.S.	SeniorLecturer	OralMedicine
36	Dr.D.V.Suganya	M.D.S.	SeniorLecturer	Orthodontics
37	Dr.CathrynBeryl Padma Felix	M.D.S.	SeniorLecturer	Prosthodontics
38	Dr. R.JayaShree Roja	M.D.S.	SeniorLecturer	ConservativeDentisrty
39	Dr.G.Aravinthraj Kumar	M.D.S.	SeniorLecturer	Orthodontics
40	Dr.K. Aishwarya	M.D.S.	SeniorLecturer	Prosthodontics
41	Dr.SyedErshadAhmed	M.D.S.	Reader	Prosthodontics
42	Dr.S.DhivyaKanya	M.D.S.	Reader	Orthodontics
43	Dr.C.S. Vineetha	M.D.S.	SeniorLecturer	ConservativeDentisrty
44	Dr. R. Chandrasekar	M.D.S.	Professor &HOD	Orthodontics
45	Dr.R.Kavimalar	M.D.S.	SeniorLecturer	ConservativeDentisrty
46	Dr.J.Jeyashree	M.D.S.	SeniorLecturer	Periodontics
47	Dr. K.Sheela	M.D.S.	SeniorLecturer	Prosthodontics

48	Dr.R.Aravinth	M.D.S.	SeniorLecturer	Oral & MaxillofacialSurgery
49	Dr. T.Gopalakrishnan	M.D.S.	Reader	oralPathology
50	Dr. R. Abharna	M.D.S.	SeniorLecturer	Oral & MaxillofacialSurgery
51	Dr.D.Swathi	M.D.S.	SeniorLecturer	OralMedicine
52	Dr.IndiraPriyadharshini	M.D.S.	SeniorLecturer	Orthodontics
53	Dr.M.Keerthna	M.D.S.	SeniorLecturer	Prosthodontics
54	Dr.P.Tanuja	M.D.S.	SeniorLecturer	Pedodontics
55	Dr. A. Preethi	M.D.S.	SeniorLecturer	Oral & MaxillofacialSurgery
56	Dr.T.Aishuwariya	M.D.S.	SeniorLecturer	ConservativeDentistry
57	Dr.K.Thendral	M.D.S.	Reader	ConservativeDentistry
58	Dr.K.C.Urmila	B.D.S.	Lecturer	prosthodontics
59	Dr. J. Surya	B.D.S.	Lecturer	Prosthodontics
60	Dr.S. Vimala	B.D.S.	Lecturer	Periodontics
61	Dr.A. Kiruthika	B.D.S.	Lecturer	OralMedicine
62	Dr.B.MenakaDevi	B.D.S.	Lecturer	Prosthodontics
63	Dr. D. Mohamed Kalifa	B.D.S.	Lecturer	Public HealthDentistry
64	Dr. R.M.Selva Rajan	B.D.S.	Lecturer	Public HealthDentistry
65	Dr. VishnuVardhan	B.D.S.	Lecturer	Public HealthDentistry
66	Dr.R. Muthuvel	M.Sc.,M.Phil,Ph.D.	Reader	Biochemistry
67	Dr.V.SenthilPrabhu	M.Sc.,Ph.D.	Lecturer	Anatomy
68	Mr. V. Ramesh	M.Sc.	Lecturer	Biochemistry
69	Mrs.M.Kanaha	M.Sc.	Lecturer	Pharmacology
70	Dr. M.Suresh	M.Sc.,Ph.D.	Reader	Physiology
71	Mrs.VinithraSuresh	M.Sc.	Lecturer	Microbiology
72	Dr.U.Neelamegam	B.H.M.S., M.Sc.	Lecturer	Physiology
73	Dr.S.Nathiya	M.Sc.,Ph.D.	Reader and HOD	Pharmacology
74	Dr.N.Shilfiya	MBBS	Lecturer	Anaesthesiology
75	Dr. VeenaJeyaraj	MD.,DCP	Reader and HOD	GeneralPathology
76	Mrs.M.Kousalya	M.Sc.	Lecturer	Microbiology
77	Dr.K.Ilavenil	BDS.,M.Sc., Ph.D	Reader and HOD	Anatomy
78	Dr.V.E. Gothainayaki	MBBS	Lecturer	General Surgery
79	Dr. M.L. Raman	M.D.	Reader	GeneralPathology
80	Dr. S. Janaranjini	MD(Physician)	Lecturer	GeneralPathology
81	Dr.P.Suseela	M.Sc.,Ph.D.	SeniorLecturer	Biochemistry
82	Dr.J.Vijaidarshan	MD(Physician)	Lecturer	Pharmacology
83	Dr.SM.Nachammai	M.Sc.,Ph.D.	Reader and HOD	Microbiology

ACCREDITATIONS

National Assessment and Accreditation Council (NAAC)

NAAC peer team visit was on 21.02.2022 and 22.02.2022. Sri Ramakrishna Dental College and Hospital is accredited with 'B' grade by the National Assessment and Accreditation Council.

International Organization for Standardization (ISO)

Stage 1 Inspection of ISO 9001:2015 was on 29.4.2022. Stage 2 audit of ISO 9001:2015 was conducted on 7th, 8th and 9th of July, 2022. Our college is accredited with ISO 9001:2015.

ACADEMIC PROGRAMS

CURRICULUM ENRICHMENT PROGRAM

Opportunities Abroad By KR Consultants

The program “Opportunities Abroad” was organised on 31.5.2022 for interns. The various opportunities after BDS in abroad and exams related to that was clearly explained by a consultant from KC overseas education. They also explained about scholarships and education loans schemes for higher education in abroad. The lecture gave the knowledge about the opportunities in abroad after BDS. 65 Interns participated in the program.

Basics of Photography

A lecture and hands-on workshop on "BASICS OF PHOTOGRAPHY" was conducted by the Department Of Orthodontics on 28/6/2022 and 29/6/2022. Dr. Suganya D.V (Department of Orthodontics), Dr. Aravinthraj Kumar (Department of Orthodontics), Dr. Ambalavanan (Department of Conservative and Endodontics) facilitated the training program. The training program helped them learn proper photographic skills and proper case documentation in their clinical practice. 25 postgraduate students benefited from the program.

Mental Health Awareness

A Program on mental health awareness and stress management was conducted on 23/07/2022 for the first years. Mr. Sudheesh, a psychologist from Sri Ramakrishna Hospital gave the students a detailed insight on the topic of stress and the methods to prevent, cope up with all kinds of stresses. The students then had an interactive session with the speaker.

Water Plant Visit

The Department of Public Health Dentistry organized an education field visit to the water treatment plant at Velliangadu, Pillur for the final year students (Aug & Feb batch) on 27th July 2022. The visit helped the students gain knowledge about the water purification procedures. 97 students visited the water treatment plant.

Analysis of CBCT Scan

Department of Oral medicine & Radiology conducted a 7 day program on "ANALYSIS OF CBCT SCAN" for the Interns and Post Graduates from 01-08-2022 to 07-08-2022 for upgrading their knowledge and skill in CBCT. Dr. Swathi D gave a lecture on Basics of CBCT which was followed by 4 day Hands on Workshop on operational training and Software Demonstration on Multiplanar Reformatting, Case based discussion on pathologies in CBCT was conducted by Dr. Hemcle Shalma followed by Hands on Implant Planning by Dr. Arun Prasath and Dr. Sidra Bano. 73 participants took part in basics of CBCT and hands on training and 21 participants participated in implant planning.

Basic Life Support

A hands-on training program on 'BASIC LIFE SUPPORT' was conducted by the Department of Oral and Maxillofacial surgery between 24/08/2022 and 07/09/2022. All the staff of the department contributed their role in training. A total of 418 participants attended the training.

Digital Implantology Workshop

Department of Implantology organized lectures on “Digital Implantology” on 23.09.2022 in the Conference Hall. Dr.Pankaj Chivte, MDS spoke on “Digitally Guided – from planning to execution” and Dr.Ratnadeep Jadhav, M.Sc (Implantology) spoke on “Digital Workflow in Single unit restoration”. Faculties and Post Graduate Students of Department of Periodontics, Prosthodontics, Oral and Maxillofacial Surgery and Oral Medicine & Radiology attended the program

Rubber dam placement technique

A lecture and demonstration on Rubber dam placement technique was conducted on 15, 18 & 19/7/22 by Department of Conservative Dentistry for II BDS. 98 students attended the program and placed rubber dam on typhodonts.

Slide Seminar

Department of Oral Pathology and Microbiology conducted Slide Seminars as a curriculum enrichment program for 3 days on 20.7.22, 22.07.22, 28.07.22 for I,II AND III Year B.D.S students(249).The program included active identification of microscopic slides, case discussions and interactive discussions to enhance the overall knowledge of the students in identifying, correlating and applying in their clinical practice.

Protocol for General Anesthesia

As a part of Children's day celebrations, the Department of Pediatric Dentistry conducted a guest lecture on "Protocol for General Anesthesia" for the CRIs on 14/11/22. A total of 45 participants attended the guest lecture. In addition, awareness on common dental problems in children and their management was created by the CRIs through Posters for the parents attending the clinics. All the CRIs were involved in the patient education program. A photo booth with cartoon characters was made for the children to alleviate dental fear.

VALUE ADDED PROGRAMS

Rotary Endodontics

Department of Conservative Dentistry & Endodontics organized a 3 day "Workshop and Hands-on program on Rotary Endodontics" from 14-2-22 to 16-2-22. The participants were introduced to the concept of rotary Endodontics through interactive lectures, live demonstrations and hands on training on both acrylic blocks and extracted natural teeth. On the final day of the program, the participants independently performed root canal therapy under rubber dam isolation with rotary endodontic instruments under the strict individual supervision and guidance of the faculties. 6 interns participated in the program.

Full Mouth Rehabilitation Clinical Treatment Prospective

The Department of Prosthodontics conducted a workshop on "Full mouth rehabilitation Clinical treatment prospective" on 27.8.2022 by Prof. (Dr.) Chetan Hegde, Professor and Head of the Department of Prosthodontics, AB Shetty Memorial Institute of Dental Sciences, Mangalore. The program was beneficial to the PG students, private practitioners and faculties as several clinical situations were explained. 46 participants benefited from this program.

The Art of Esthetic Restoration With Composites

The department of Conservative Denstistry & Endodontics organised a hands on course on "The Art Of Esthetic Restoration With Composites" on 11th, 13th&14th of September. The participants were introduced to the concept of layering of composites through interactive lectures and live demonstrations by Dr.S.Subash Sharma MDS, Reader & HOD, Department of Esthetics, Saveetha

University, Chennai. The participants individually performed layering of composites on models under faculty supervision and guidance. 32 participants benefited from this program.

The program started with a pre-assessment quiz to determine the knowledge of the students about Psychology and its effect on behaviour. This was followed by a series of lectures about various theories of Psychology and its impact on molding the behaviour of a person. Each topic had a follow up online activity which included assignments and quizzes and this was aimed at helping students use the knowledge to analyze the behaviour pattern they see in real life situations. A post assessment quiz was conducted. A total of 98 participants attended the program.

CSM PRESENTATIONS

Clinical society meeting is an excellent forum for presenting rare and interesting cases. The recent advances in Dentistry are also discussed. Faculty, PGs and CRIs take part. In addition to updating the knowledge it also gives the students a platform to hone their presenting skills under the guidance of the Faculty. The following topics were presented in the current academic year.

S.No	Date	Topic	Presented by
1.	20.5.2022	Case Presentation - Black Fungus Rehabilitated	Dr Anjana Kurien, MDS
2.	20.5.2022	Prosthetic solutions for Dental Implants Case oriented presentation	Dr. Syed Ershad Ahmed, MDS
3.	28.6.2022	The Pathology in disguise	Dr.Harshini.G MDS
4.	30.8.2022	Atraumatic orthodontic treatment of severe premaxillary extrusion of bilateral cleft palate with posterior cross bite by a Simple JUDO mechanism	Dr. Chandrasekar.R MDS
5.	30.8.2022	Rotation correction by removal appliance an attempt	Dr.Abinila
6.	15.11.2022	Disimpaction of Lower 2nd Molar with W Spring - A Small Innovation	Dr.Kanchi Kamakshi
7.	15.11.2022	Breaking the rule to follow wolfs law	Dr.Preethi Jayachandran
8.	15.11.2022	A Rare oral manifestation of Vitamin B12 deficiency: A Case Report	Dr Sidra Bano, MDS
9.	15.11.2022	Artificial Intelligence in Dentistry	Dr Shilpa, MDS

Department of Prosthodontics

Dr.Anjana Kurien MDS, Professor & HOD presented a case report on 'Black Fungus –Rehabilitated’ and Dr.Syed Ershad Ahmed MDS, Reader presented a case oriented overview of “Prosthetic Solution for Dental Implants”. 31 attendees benefitted from this program.

Department of Oral pathology and Microbiology

The scientific paper titled Fibro-osseous lesions-A diagnostic dilemma was presented on behalf of department of Oral Pathology by Dr.HARSHINI.G M.D.S, Senior lecturer for the month of June. Presentation enlightened about the diagnostic dilemma in diagnosing fibro-osseous lesions and

emphasis on importance of correlation of clinical, radiographical, laboratorial and histopathological features in arriving at the diagnosis of fibro-osseous lesions. Numbers of attendees present were 14.

Department of Orthodontics

Two presentations were presented on 30.8.2022."Atraumatic orthodontic treatment of severe premaxillary extrusion of bilateral cleft palate with posterior cross bite by a simple JUDO MECHANISM" was presented by Dr. R.Chandrasekar, Professor and "Rotation correction by removable appliance-An attempt" was presented by Dr.K.Abinila, final year post graduate. 50 attendees benefited from this program.

Department of Orthodontics

From the Department of Orthodontics And Dentofacial Orthopaedics there were 2 presentations on 15.11.2022.First presentation titled "Disimpaction of Lower 2nd Molar with W Spring - A Small Innovation" was by Dr.kanchi Kamakshi and second presentation titled "Breaking the rule to follow wolfs law" was by Dr.Preethi Jayachandran.

Department of Oral medicine and radiology

From the Department of Oral medicine and Radiology, Dr.Sidra Bano presented “A Rare oral manifestation of Vitamin B12 deficiency: A Case Report” in the CSM held on 15.11.2022.

Department of Oral and Maxillofacial surgery

From the Department of Oral and Maxillofacial surgery, Dr.Shilpa, MDS presented on the topic “Artificial Intelligence in Dentistry” in the Clinical Society Meeting held on 15.11.2022.

CONFERENCE

DENTRAUMELLA

Sri Ramakrishna Dental College & Hospital facilitated the conference “DENTRAUMELLA” in association with Indian Society Of Dental Traumatology on 2.04.22 and 3.04.2022

INSTITUTE INDUSTRIAL CONNECT

Viva Scan Intra Oral Scanner
