TOTAL NUMBER OF PROGRAMS – 101 (november 23 – october 24)

A staggering amount of 101 programs were conducted from November 2022 – October 2023 including workshops, clinical society meetings and graduation ceremony.

The departments and committees were active in conducting may workshops and programs from November 2023- to October 2024.

All the clinical departments were active in organising clinical society meetings. There were very limited discussions in the year for which the audit was conducted.

The programs organised and conducted by the basic sciences departments were also found to be less and they were encouraged to organise and conduct more programs.

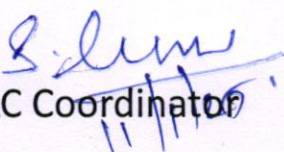

The department days were celebrated by most of the departments. The IQAC had conducted the orientation programs and FDPs that were beneficial to the faculties. The student council had also organised and conducted various programmes throughout the year.

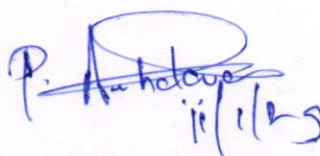

Many training programs were organised that benefitted the faculties, non teaching faculties students in enhancing their skills in dentistry.

The annual day of the institution was celebrated for the first time in the history of SRDCH in a grand manner

RECOMMENDATIONS:

- 1) All the departments are requested to conduct programs that benefits the majority of the students irrespective of the batch they belong to.
- 2) All the departments are requested to conduct add on and value added programs
- 3) PG departments are requested to conduct interdisciplinary programs.
- 4) Proposals for programs to be submitted a year before in advance
- 5) Reports of the programs to be submitted within a week of completion of the program.
- 6) More number of panel discussions to be encouraged.
- 7) Feedbacks for the programs to be taken consistently.
- 8) Outcomes to be measured qualitatively as well as quantitatively for value added and add on programs like lasers /implantology.
